## HOME TREATMENT FOR BAD COLDS

**A Method Which Promises Relief in a Single Night**

Colds probably cause more trouble than any other single ailment. They also probably lead to more serious forms of disease than any other common complaint to which human beings are subject.

The secret in overcoming a cold is getting at it in its early stages. Here home treatment is effective, whereas if it is allowed to develop so that the bronchial tubes or lungs are affected, it is advisable to summon medical aid.

For home treatment of colds and grippe there is no remedy equaling Grip Fix for prompt results. It is a compound of Quinine, Salol, Caffein Citrate, Cascaro and Camphor Monobromate. This treatment for colds is universally advised by physicians as not only prompt in action but also leaving no after effects to be overcome. The action keeps the system open, checks the fever, allays the pain in the muscles, opens up the head and tones up every organ of the system. If Grip Fix is taken according to directions—two capsules every 2 hours for 2 hours and one capsule thereafter, the sufferer gets relief from even a bad cold in a night, while 48 hours is usually sufficient for Grippe. When buying be sure to get Reid's Grip Fix with the ingredients noted on the box, as there is no substitute which approaches it. On sale at 25 cents per box at all druggists.—Advertisement.

## TRESTLE GLEN IS URGED FOR OAKLAND PARK

Purchase of Trestle Glen for a city park is to be urged before the city council next Friday morning by a delegation of citizens headed by a special committee of the city interests committee of the Chamber of Commerce, it was announced this morning.

This action was decided on last night at a meeting of the City Interests Committee with representatives of improvement clubs, women's clubs and other civic organizations in the offices of the Chamber of Commerce.

The active committee in charge of the delegation will consist of J. J. McElroy, A. C. Agnew and C. H. J. Truman. President Walter D. Cole also will appear before the council, as will H. C. Capwell, former president, and Jesse J. Dunn. Altogether it is planned to have at least twenty-five in the delegation.

Dr. L. H. Herrick, chairman of the City Interests Committee, presided. Speeches were made by President Cole, who has announced the acquisition of parks as one of the principal policies of his regime as head of the Chamber of Commerce; F. F. Morse, commissioner of public health and safety; A. S. Lavenson, H. L. Hagan, city attorney; E. C. Elliott, Mrs. A. C. Agnew, C. H. J. Truman and Professor L. D. Martin of the public schools.

**FIFTY FAVOR PURCHASE.** About fifty men and women were present and none opposed the purchase of the proposed park.

President Cole, in laying the matter before the meeting, urged quick action, saying that two offers from private parties were now being considered for the purchase of the Trestle Glen property.

"We are about to lose our road to Rome," he added, pointing out that with Trestle Glen gone the connecting link would be destroyed between Lakeside Park and beyond to Joaquin Miller park.

"According to Cole, the owners of Trestle Glen are willing to sell it to the city on the city's own terms, price and conditions of payment." "It has been demonstrated," he said, "that parks pay for themselves in from fourteen to twenty years in added taxation caused by the increased values of private property. That is the practical, hard, dollar-

## GIRL LATE FOR SCHOOL CROSSES BAY IN AIRSHIP

Mary's lamb won't follow Miss Teresa Conway to school. Not unless the lamb has a friend who owns an airplane.

Miss Conway, who is a student at St. Michael's boarding school at Livermore, was late packing in preparation for her return to the school yesterday from her San Francisco home. So her parents telephoned the Marina, the girl was bundled into a "Blue Bird" passenger plane and waited across the bay. A few minutes before 9 o'clock she stepped from the machine, in time for her first class.

and-cents view of it. But consider that one-third of our time is leisure time, or formative time, and if we give our boys and girls a chance to get out in the open and look God in the face we build them into men and women that will be the bulwarks of the community and the nation."

**CORPORATE FAVORABLE.** Commissioner Morse, giving it as his opinion that the city council was in favor of the purchase and merely wanted an expression of opinion from the people, suggested that the acquisition of Trestle Glen would be made through an "installment option," the money to come annually from the tax levy. Waiting for a bond issue would be dangerous, he said, as the opportunity to buy might pass away.

City Attorney Hagan, in reply to suggestions from A. S. Lavenson and Dr. Herrick, said he could see no legal bar to entering into a contract for an "option installment" and then in the future taking up the rest of the indebtedness through a bond issue.

Mrs. Seeley reported that the Park Boulevard Improvement Club already was on record in favor of buying Trestle Glen and Mrs. Law said the proposal would be reported to the Civic Center at its meeting next Friday.

The committee to appear before the city council was then appointed, and the meeting had urged quick action.

## Marietta A. Joseph's Memory Paid Tribute

Tributes are being offered to the memory of Mrs. Marietta A. Joseph, a pioneer of Golden Gate District, who died last week. Mrs. Joseph for a quarter of a century was an active member of the Golden Gate Baptist church. She was known widely for her philanthropic and kindly deeds. She was the widow of the late W. P. Joseph.

Besides her daughter, Miss Hulda E. Joseph, Mrs. Joseph is survived by two sisters, Mrs. Callie Romer and Mrs. Helen Lamar. She was born in Maine, 64 years ago. Funeral services were held from the Golden Gate Baptist church.

## GREETERS NAMED BY CLUBWOMEN

The local board that will arrange the entertainment for the several hundred delegates who will attend the annual convention of Alameda County, California Federation of Women's Clubs, meeting in Alameda in April, has been appointed and will be organized for work immediately. ## GRASS INJURES TWO

In attempting to pass between a northbound street car on Grand avenue and a truck which was towing a disabled automobile, Edgar Griffin, 19, of 484 Weldon avenue, caused his automobile to collide with the other two, stripping them of their renders and then collided with a street car. Lewis Parker, 19, residing at 615 Valle Vista avenue, was thrown to the pavement by the collision and Griffin was slightly hurt by flying glass.

## AT WHAT AGE ARE WOMEN MOST INTERESTING

**When She Is Useful, Is View of Novelist**

**By JANE DIXON**  
A woman is most interesting when she is doing something useful. Robert W. Chambers. You never can tell!

Who would have thought, for instance, that our prolific and extremely popular American novelist, Robert W. Chambers, might select the useful woman for the target of his interest?

Mr. Chambers, who writes so vividly of the society woman, the frenetic creature on the chaise longue, though it must be admitted he delights to clip the wings of his butterflies in a way to show up their silly pretences and affectations, does not care for her moth. He holds at all this a gray hair in contempt.

And so we have the weaver of romance choosing for his ideal the woman of work. A strange world and a strange sex—the stronger. In his town house, New York City, where, as he puts it, he "stops over now and then," Mr. Chambers pronounced his verdict with a decisiveness of word and tone which left no slightest doubt as to the sincerity of his opinion. He is for the useful woman all the way through and he does not care who knows it.

"Useful in what way?" I asked, conscious of the keen gray eyes and glint of decision behind them. "Useful in the home or in the world of work?"

"Useful anywhere, everywhere," was the answer. "A real woman finds something worth while to occupy her in whatever position of life she happens to find herself."

## PURPOSELESS WOMEN

"I have no patience with the other kind—the dawdlers. A listless, purposeless woman is the greatest nuisance in the world. She is a waste of time and space. She is a dead weight on the shoulders of the world. She is a woman who does nothing and who cares nothing for the world."

"I can see no reason for such a woman. She neither inspires nor achieves. She takes all and gives nothing. She clutters up the world with her useless self."

He absolutely denied any favoritism, whatsoever, in the matter of years and the feminine equation. "You see," he explained, "my interest is for the useful woman, so it is impossible to fix a definite period of her life as being especially attractive. Utility in woman is not so much a question of age as it is of will and the right instincts."

"A young girl can be of invaluable service to her mother by lending a hand about the house, or if this is not necessary, by offering to her mother that companionship and confidence which is the veritable life of the home. She can be a 'pale' of youth for the maternal heart and mind. She can help her father too, by cultivating his interest in his affairs, making a pal of him, doing her share to keep the home atmosphere bright and cheery that he may relax and enjoy his health after the daily grind."

"If you have seen a grandmother with a brood of wide-eyed, open-mouthed youngsters around her, you know whether or not she fits into the scheme of usefulness. 'Idle, aimless youth is no more attractive than idle, aimless old age. That a woman is possessed of the beauty and grace of youth is no excuse for her being a slacker. Tomorrow these possessions will pass out of her keeping and she will be a whining, complaining monomania, the object of her particular mania being her own useless self."

## PLACING AN AGE LIMIT

"I believe the majority of men today, sensible men, find woman most interesting when she is at the flood tide of her mental and physical development. Here, again, it is difficult to place an age limit. So much depends on the individual, her temperament, her environment, her opportunities for observing and experiencing. The girl who lives in the midst of modern city life and lives it, must of necessity develop earlier than the girl who stays far back in the country and knows only rural work and pleasure."

"The girl who marries when her youth develops faster than her single sister. I am sure many of the Revolutionary women must have been intensely interesting at the age of twenty. The officers of our Colonial army were mere lads. Lafayette was sixteen or thereabouts when he came to this country to be a soldier, Alexander Hamilton was eighteen when he married Eliza Schuyler, a lovely girl of sixteen."

"To the fullness of their bloom at an age when the modern girl is wearing hair ribbons and frolicking through her school days. Development of a woman is governed to a great extent by the era and environment in which she lives, so that any age we fix as the crest of her womanhood must be relative."

There was only one avenue left through which Mr. Chambers might be lured to a more definite admiration of "the restless sex." I took my stand and tried to steer him gently past the entrance into the avenue of admission.

"Which," I asked, "of all your heroines do you like best?" Back came the reply like the explosion of a rapid firing gun in the hands of an expert runner.

"None of them. I have never been interested in woman as a separate subject. I have considered her only in conjunction with the story."

**THE ELEMENT OF MYSTERY.** "It has been said of me that I am a sort of a fashionable modiste, gawking my heroines in modes of the moment. Yet I have never described a single gown or costume worn by the women of my stories. I have given a word, a hint, a suggestion and left my public to supply details. I know very well that is exactly what the public likes to do. If you asked six persons to give minute descriptions of the personal appearance of Palla Durnont, the principal feminine character in my last novel, 'The Crimson Tide,' I'll wager there would not be a half dozen points of similarity in the six descriptions."

"This, by the way, might be a tip worth while for women in real life."

"An element of mystery, wholesome mystery, is a becoming adjunct to femininity. A flaxen woman cannot be interesting. Usually she is not. But interest and notoriety."

**FILMS SHOW**  
**SNOW FIGHT, INDIAN DANCE**

Today's TRIBUNE-T. and D. News Weekly shown at the T. and D. theater, contains a budget of interesting current Oakland happenings. Scenes include the free-for-all snow fight staged here New Year's day when a carload of snow was sent from Truckee for the occasion; the New Year's day dance pageant staged by the girls of Lakeview school at Lakeside park; the arrival of Captain C. W. Cole, naval recruiting inspector.

Another interesting scene is that which interprets the "Sunset Song," the Zuni Indian dance, by Miss Zahrah E. Preble of the Berkeley Campfire girls. Indian legends, many generations old, have been given to the "pale face." Prince Kamehameha of Sanpoil tribe, northern Washington, and Mrs. Marian Gould of Berkeley in co-operation with the Board of Education, presented these legends to the public. One costume, the first given to a white woman in the person of Mrs. Gould, took a year to complete. A Sanpoil chiefdom and is made up of three deer skins in addition to thousands of beads.

riety are birds of a different feather. It is better than she suggests, the things she is and leave an inviting space for the world to fill in its own version of her personality. The result will be far more flattering."

Mr. Robert Chambers smiled. His iron-gray mustache turned up at the corners. His square-jawed, ruddy face, on which the outdoors has left its pigment of tan and Indian red, broke into lines of amusement. He touched his iron-gray hair lightly with his hands. His wide shoulders shook to the tempo of a suppressed chuckle.

"You might say," he concluded, "that the interest of a woman is in direct ratio to her usefulness. On that basis it should be easy enough for every woman to figure out exactly where she stands in this measure of interest."

Nevada potatoes jumped to \$5 a hundred in the local wholesale market today, showing an increase of 25 cents a hundred over the price of yesterday. River potatoes sell for \$5 a sack, or approximately 120 pounds.

Potato prices in all parts of the country have been climbing steadily for many weeks, and dealers doubt if the peak has yet been reached. The demand is reported steady.

Southern lettuce, the first of the season, reached the local market this morning and is expected to be plentiful from now until the end of the season. The quotation is \$5 a crate, but price is expected to decline when the supply becomes more plentiful.

**Lloyd George Wants To Head New Party**

LONDON, Jan. 6.—The political correspondent of the Daily Mail says that Premier Lloyd George, foreseeing that he has no political future among either the Unionists or Liberals, is preparing to inaugurate a new center party, of which he would assume the leadership.

"This," adds the correspondent, "is the real reason for Churchill's attack on labor, which doubtless was more or less inspired by the premier. The association of Lloyd George with Churchill is so clear that toward the end of the last session of Parliament the members used to say that the government really consisted of Lloyd George and Churchill."

Ambassador Wallace, it is stated, has not asked for the abandonment of the terms "allied and associated powers," but merely requested that, when questions arose which involved the United States this formula, including the United States, be not used in documents until he had time to get a decision from Washington on such questions.

## SENSATIONS IN WOODCOCK CASE

### SAN FRANCISCO NEWS

### FOUR ATTORNEYS STAGE FIGHT

SAN FRANCISCO, Jan. 6.—Just long enough to disclose sensational glimpses of new evidence, the grand jury investigation into the Woodcock case lasted last evening. Postponement was ordered suddenly until Matthew Brady, now police judge, takes office as district attorney the end of this week.

Attempt to influence a member of the district attorney's force to excuse a juror from sitting in the burglary trial of "Preacher" Joe King so he could be saved for the Woodcock panel was reported to have been disclosed. It was announced that Assistant District Attorney William H. McWood had been subpoenaed at the last moment, and it was said he would testify to this attempt. The juror was declared to be favorable to a "temporary insanity" verdict, excusing Woodcock for the killing of Edward Kelly.

Another sensation was the announcement that Edward Grady, sports promoter and active politician, would be called to give valuable evidence.

## 15-YEAR-OLD WIFE OF SOLDIER ELOPES

The 15-year-old wife of a soldier overseas is the center of the latest disclosure of a New Year's night runaway. A warrant has been issued for the arrest of George M. Forrest, age 32, an electrician.

Cecil Wave Breck was the girl's maiden name. She was married when 13 to a soldier at Houston, Texas, according to her parents, Mr. and Mrs. Herbert Brock, 24 Tiffany avenue. She never lived with him and the parents planned to have the ceremony annulled.

They told the police that their daughter took with her pictures of Forrest. She may be on her way to Reno, they believe.

She left a letter telling them that she had a position and that it would be useless for them to attempt to find her. She was a member of the class to graduate this month from the Horace Mann school.

## REVENUE AGENTS FIND WHISKY STILL

Hidden in willow trees on the shore of Mountain Lake, on the government reservation at Fort Scott, interior revenue agents discovered a fully equipped whisky still. Remnants of oranges, lemons and apples were found in the boiler, still warm. Two empty bottles labeled "lay rum" lay nearby. The moonshiners are alleged to have used two trees as "crow-nests" and the bootleggers were warning of any person's approach.

Fifteen men arrived here yesterday as additions to the prohibition enforcement squad of Justice S. Wardell, collector of internal revenue.

## MAN DESERTS WIFE FOR ANOTHER'S COOKING

It was the "other woman's" cooking that did it, alleges Mrs. Grace E. Borg in a suit for separate maintenance filed against Daniel E. Borg, merchant. She charges that her husband, who she says has an income of \$100 a month, took alligator peels and broilers to the other woman's apartment because of her culinary superiority. Recently he told her, she charges:

"I admire a woman who can take a man away from his wife."

She asks for \$250 a month.

## BOY KILLED UNDER STREET CAR

Caught on the fender of a McAllister street car, Harry Pierce Jr., age 9, a deaf mute, was rolled under the front truck to his death yesterday when the motorman attempted to manipulate the fender. The boy was not coming from school. Motorman and conductor, John Devincenzo and Joseph Kornus, were arrested. Devincenzo said the accident was unavoidable.

## FOUR ATTORNEYS JOIN IN FISTIC ENCOUNTER

Four attorneys joined in a fistic encounter yesterday in the corridors of the Hall of Justice on adjournment of the case of Attorney C. Vincent Riccardi, accused of embezzling \$1000 from a client. Riccardi assailed William McWood, assistant district attorney, for introducing witnesses against Riccardi's reputation. Then the fun began. McWood says Riccardi kicked him and tried to knock out an eye. Richard Barrett, another assistant prosecutor, helped McWood, and James Carroll, another attorney, joined the melee for Riccardi. Spectators separated them.

## GENERAL FINDS COOK WEARING KNIGHT MEDAL

PARIS, Jan. 6.—Strange and puzzling complications have arisen in the relations of the people of France as a result of the world war. Persons wearing proudest decorations are found engaged in rather humble vocations and the fact that they have been honored by their country would probably never become known if on some occasion attention was not called to it.

"You are wrong to speak so severely, my general. I am a Knight of the Legion of Honor."

The general was General Gasoulin, who controlled the Paris railroad systems when they were taken over by the army and the knight was his new cook, who had overdone the roast.

The general could not believe his ears. He made an investigation and found that the cook had lost her husband early in the war. She became a nurse at the front where she showed such bravery that the red ribbon decoration was awarded her.

"When the general learned the truth he ordered the cook," says the Echo de Paris, which vouches for the story, "and since has not allowed himself to make remarks when any dish has not been a perfect success."

## Granados' "Goyescas" Produced in Paris

PARIS, Dec. 19.—Enrique Granados' opera "Goyescas" was produced today at the Paris Opera House. Maria Malba, Spanish dancer, aroused great interest in her interpretations with the music that there is a sharp cleft between "molinists" and "anti-molinists" among her sisters of the Ballet.

Granados, it will be recalled, perished on his return voyage from America aboard the Sussex, which was torpedoed by a German submarine. His son Eduardo attended the rehearsals. His likeness to his father is striking.

Let every woman take advantage of the low prices marked on new undermuslins, blouses, linens and white goods

## Economy plus Possession

There are two forms of Thrift. One is to arbitrarily do without things—to deny oneself certain necessities and comforts of life. This narrows one's enjoyment, often takes from one's personal pride or pride in the equipment of the home.

The best form of Thrift is to BUY CAREFULLY—to secure and use the things needed for comfort and happiness—but to be sure of good quality—to make things last as long as they render good service, to buy no more than you actually need and, most important of all, to buy them WHEN THEY CAN BE BOUGHT AT LOWEST PRICES.

That time, for many needed things, is NOW and HERE.

Remarkable January concessions, in view of rising market costs, are being made this week on goods of the right kinds, that will give long service.

## Make Housekeeping Easy and Comfortable with a Detroit Jewel Range and a Detroit Jewel Kitchen Heater

Buy them on our Easy Pay plan; small amount down and small amount monthly.

DETROIT JEWEL GAS RANGES are preferred by women because of their durability, economy and efficiency. Some of their superior points:

**They Bake Better**

This is accomplished by a patented and exclusive oven feature.

**They Are Best Equipped**

Their snowy white porcelain parts make them not only sanitary but beautiful. A porcelain broiler pan and burner tray is provided.

**Easiest Cleaned**

The rich, velvety baked-ebonite black finish requires no stove blacking and the rounded, smooth castings take the work out of cleaning.

**Most Economical**

You can bake and broil at the same time as one set of burners heat both oven and broiler.

## Gas Saving Burners—

Complete burner cast in one piece. No parts to warp or allow gas to escape. Made star-shaped so air can mix readily with the gas and produce the hottest flame. —Third Floor.

## The Detroit Jewel Kitchen Heater

No auxiliary attachment has done more to insure the use of a gas range the year around than the kitchen heater.

This Detroit was designed to meet the demand for a superior heater incorporating features that would insure greater durability, efficiency and utility.

The durability of the Detroit Heater is assured by an all cast-iron construction.

The top has two eight-inch covers; ash pit with a large bailed pan; grate of the duplex type, and dampers to permit positive control of the fire whether soft coal, hard coal, coke or wood is burned. Can be furnished with a water heating coil if desired. The legs are adjustable so the heater can be placed on a level with the gas range, and six-inch pipe collar assures the proper pipe connection. —Third Floor.

**Peel Off the Old Skin; Bring Out the New**

You know that beneath that muddy, overcast or blotchy complexion you have a skin that is soft and white. If you could only have this more beautiful skin exposed to you instead of the horrid old skin you now behold in your mirror. You can and by a very simple harmless process which you can use yourself. Get an ounce of our famous **Wax** and apply it to your face. Tomorrow morning wash it off with warm water. Small powder-like particles of the wax will come off with the wax. Repeat this daily until all the worn-out skin has been absorbed. Then you'll have a lovelier, healthier looking complexion than you now think possible. No redness, spots, freckles or other surface disfigurements are of course removed with the skin itself. Advertisements.

**OUT O' ORDER STOMACHS**

Indigestion, Acidity, Sourness and Gases ended with "Pape's Diapepsin"

The moment you eat a tablet or two of Pape's Diapepsin all the lumps of indigestion pain, the sourness, heartburn and belching of gases, due to acidity, vanish—truly wonderful!

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once.

Box of Pape's Diapepsin now! Don't stay dyspeptic! Try to regulate your stomach so you can eat favorite foods without causing distress. The cost is so little. The benefits so great.

**SILVER STRIKE PROVES RICHEST EVER RECORDED**

VANCOUVER, B. C., Jan. 4.—The richest silver mine ever recorded in Canada has been located near Stewart, forty miles south of the Premier mine and about forty miles from the Alaskan border, according to information brought to this city today by miners returning from that region.

The strike was made a month ago but the operators have kept the find silent. Already more than twenty tons, valued at \$500,000, has been mined and awaits shipment. It is reported.

The news was brought by miners from Alice Arm, Observatory inlet, not far from the Alaskan border.

One valued at \$20,000 a ton has been found in the mine, which is called the Holly Varden. It was discovered in the form of a four-foot enrichment of a considerable sized vein. It is said to be nearly three-fourths pure silver.

**PAPER BANKER DIES**

LONDON, Jan. 4.—Lord Curzon, one of the foremost bankers in England, died today.

**PAISH DISCUSSES LOAN WITH GLASS**

WASHINGTON, Jan. 4.—Sir George Paish, British financial expert conferred today with Secretary Glass at the treasury department and plans to discuss with other officials and members of Congress the general European financial situation.

At Mr. Glass' office it was said that the British financier merely called to pay his respects, he and the secretary having known each other for some time.

"I am here to conduct a private inquiry to ascertain how far American money can assist in the European situation," said Sir George in commenting on his visit to the United States. His mission was purely to obtain information, he said, adding that it was uncertain whether he would lay before New York a memorandum for the financial assistance for the war-ravaged countries overseas.

Sir George said the situation in England was not one to require any foreign loan, but that France and Italy were in dire straits and reconstruction in those countries could be started only by the floating of an extensive loan to stabilize international credits. He declared that interests of Europe, most particularly for the loan of \$5,000,000,000 to which the United States would be invited to subscribe approximately one-half, were not looking to the American government for aid.

It was the purpose of the proposition of the loan, he declared to interest banking and commercial interests.

Sir George himself will not participate in any movement to obtain the amount, he said. The object of his visit, he added, was to find out the attitude of financial leaders on the question of an international loan and to ascertain the amount of the amount from the United States.

**STOCKMEN LAUNCH FAIR ASSOCIATION**

Stockmen of the Pacific Coast have formed the Western Fair Association to create and maintain a livestock show circuit for the entire Pacific Coast. C. H. Thomas, Los Angeles, was elected president. Frank M. Rothrock of Spokane, vice-president; Charles W. Paine of Sacramento, secretary-treasurer, and Walter C. Picklin of Fresno and O. M. Plummer of Portland, members of the executive committee in addition to the other officials named. The organization was perfected yesterday at a meeting in San Francisco.

Others present were J. K. Macomber, representing the "Red" County Livestock Show; E. A. Kiser, secretary, Glenn County Fair; W. T. Sisson, San Francisco; Albert M. Paul, Los Angeles; W. W. Van Pelt, Riverside; Bert E. Hilborn, Spokane; John H. Shaw, Portland; and C. C. Thomas.

The meeting was presided over by C. H. Thomas.

A program of livestock shows for the coast was drawn up, the list including some shows the dates of which already have been definitely determined and others having tentative dates. The list is as follows:

November 10 to 12, Tulare County Livestock Show, September 14 to 18, Hanford, Kings County Fair, September 21 to 25, Glenn County Livestock Show, September 27 to October 1, Fresno District Fair, September 23 to October 1, Los Angeles Livestock Show, October 2 to October 10, Riverside County Fair, October 11 to October 19, San Francisco National Livestock Show, October 16 to October 24, Spokane, Western Royal Livestock Show, November 1 to November 5, Lewiston, Northern Livestock Show, November 8 to November 12, Portland, Pacific International Livestock Show, November 10 to 12, Portland.

**The Quick Way Stop a Cough**

This home-made syrup does the work in a hurry. Really pleasant.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Four 2 1/2 ounces of Pinex in a pint bottle, then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup instead of sugar syrup, if desired. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine is really nothing better to be given than Pinex. It goes right to the source, gives relief, it soothes the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded.

**Schwab Says Economy Is Need of Country**

NEW YORK, Jan. 4.—Charles M. Schwab, who addressed the Rubber Association of America last night, declared that economy was the crying need of the country, that the whole nation was spending money like "drunken sailors" and "practicing extravagance" such as having motor cars, and that the country would pay the penalty in years to come "for the waste that has been made."

**TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES**

If you have Catarrhal Deafness or are tired of hearing or are annoyed by head noises, you should use a little of our "Ear Drops" (double strength) and add to it a pint of hot water and a little granulated sugar. Take one tablespoonful four times a day. This will often bring quick relief from the deafness and head noises. (Closed nostrils should open breathing before use and a mucous stop dropping all the way down the throat to prepare for use. It is pleasant to use. Anyone with Catarrhal Deafness or head noises should give this preparation a trial.)

## OAKLAND WILL FILE BRIEF IN WATER BATTLE

### 10,000 GALLONS OF CIDER GONE; TRAMPS BLAMED

SACRAMENTO, Jan. 6.—A tank car containing 10,000 gallons of apple cider when it left Watsonville, Cal., consigned to the Gilt Edge Packing Company here, arrived in Sacramento empty and the railroad officials and packing company employees blamed tramps for its disappearance. Tramps opened spigots to get a drink and left the spigots open, it was said.

The cities of Berkeley, Alameda, Richmond and San Leandro, which are joined in the issue with this city, will not prepare separate cases, but will rest their cases in Oakland's brief.

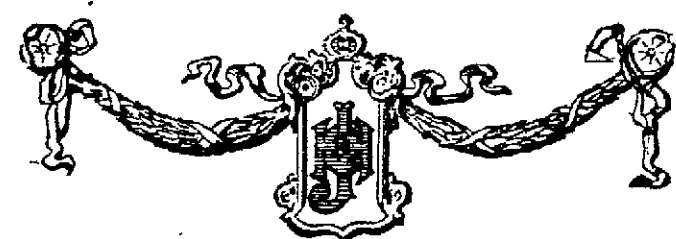

In the preparation of the case for the Eastbay municipalities, the attorneys of the other municipalities will co-operate with Gray in drawing up the brief, which must be started today by Assistant City Attorney Leon Gray of Oakland.

According to an announcement from San Francisco, which joined today, only one brief will be filed with the cities on this side of the bay in the fight against the surcharge at the last hour.

## AUDITORIUM DECKED FOR AUTO SHOW

It is difficult to conceive the changes that are being wrought in the Civic Auditorium by the decorators who are preparing the vast hall for the Oakland Automobile Show, to be held there from January 19 to 25.

According to Charles Francis Rosa, famous mural artist, who is supervising the work, when the artists have completed their task they will have completely transformed the auditorium's interior.

**COLORS EMPLOYED**

From the floor, which will be entirely covered with a soft green carpet, to the very ceiling, the auditorium is being changed into a bower of blooms and vivid color. Hung from the ceiling, which is also covered with a highly decorative canopy, and extending to the balcony railing, will be eight huge murals. The motive of these paintings is California, her fine roads, flowers and fruits.

The murals will conceal the balcony seats, while the balcony railing itself will be covered with the valance on which will be painted typical California fruits and flowers. Interwoven throughout the whole decorative scheme will be the California poppy. Rosa said at his studio, where he is working on a huge mural of the Sky Line boulevard: "We want to present mass upon mass of color, yet keep it subdued enough to allow the cars to predominate. I have worked out many floral pageants and decorated a multitude of cafe and theater interiors, but this is going to be one of the most beautiful shows I have ever turned out."

The illuminative scheme is also very elaborate. At each booth or display will be a standard built of transparent walls and lighted from within. This will support a glass constructed similar to a drum of scroll shape, on which will appear the exhibitor's or car's name. This, too, will be transparent and illuminated internally.

## In the Political Field

Senator Hiram W. Johnson and his aides left today for the East, where they will wage a campaign "directly with the people," they said, for nomination of the Californian as standard-bearer in the presidential party in the fight for the presidency.

Accompanying the senator are Eustace Cullinan and Sylvester McAttee of San Francisco, and Joseph Scott of Los Angeles. Washington, D. C., is their first destination.

Possible complexities of the "favorite son" situation in several States were said by Senator Johnson's supporters. The object of a Johnson campaign in such States as Illinois and Ohio, where "favorite sons" promise a strong bid for the honor, is undecided.

State Chairman Raymond Benjamin said with regard to reports that General Leonard Wood and Governor Frank O. Lowden would try to capture the California delegation that there was certain Governor Lowden would not. A message from the governor himself making this assertion had been received, Raymond announced. He thought it highly improbable that General Wood intended to try for the California delegation.

Republican State chairmen and national committeemen from six States will assemble in San Francisco January 12 for a conference with William H. Hays, chairman of the Republican national committee. The conference will be held at the Palace Hotel and will last two days. On the evening of January 13 a banquet will be given at the hotel for the Republican State chairmen.

The States to be represented are Washington, Oregon, Idaho, Nevada, Arizona and California. They form a regional committee.

Accompanying the national chairman will be Miss Mary Garrett Hays, chairman of the Republican women's national executive committee. Mrs. John G. South, chairman of the women's division of the Republican national committee; Mrs. Margaret Hill McArthur of Kansas; Mrs. Josephine Corliss Preston of Washington; Mrs. Raymond Collins of California, all members of the women's executive committee.

## Convention Plan

BY ASSOCIATED PRESS

LEASING WIDE TO TRAVEL.

CINCINNATI, Jan. 6.—Republicans from fourteen middle western states continued today their work of molding party issues and laying plans for the participation of Republican women in the 1920 presidential campaign.

Demands of women for equal representation on the national committee, reflected in speeches of prominent party leaders to deal vigorously with the labor and industrial situation as one of the chief issues of the election campaign, were the principal developments of the conference which began yesterday.

Many of the women today regarded their demands for "a fair representation" in the party organization as virtually confirmed with the statement of Will H. Hays, chairman of the Republican national committee, that party officers should offer the women everything we offer the men.

Plans for the next Republican convention in June also were launched and arrangements for the holding of the Coliseum to allow a seating capacity of 13,187 were made.

Edward P. Thayer of Indianapolis was elected secretary-at-large for the gathering at a banquet last night given by the state central committee in honor of Chairman Hays and Mrs. John Glover South, chairman of the women's division of the national committee, the two candidates for the presidential nomination and Chairman Hays devoted their attention to industrial problems. The gathering was attended by more than 1200 Republican men and women.

Major General Leonard Wood, assistant secretary of the day is maintenance of law and order, respect for constituted authority and maintenance of a government under the constitution.

"As for the reds," General Wood said, "let's stamp them out. They grow in communities where government is timid and slack. Ninety per cent of American labor is on the square," he said, urging American leadership for labor.

Governor Frank O. Lowden of Illinois urged women to aid in bringing about a more healthy industrial situation. "If every man and woman took the same interest in political matters as in their personal affairs, most of our ills would disappear," he asserted.

"The war on radicalism," he said, "there was no more potent argument than home ownership. Governor Lowden made public a letter to Senator Borah of Idaho in which he urged ratification of the covenant of the league of nations with such reservations as already adopted by the Senate.

The first squad was recommended by Chairman Hays as the means for dealing with anarchists. He said: "The State."

## Attorney Wade Snook is Now Called 'Papa'

Courthouse attaches are today congratulating Deputy District Attorney C. Wade Snook on the advent of a 14-pound baby girl born to his wife at Merritt Hospital. Snook was beating today and announced that mother and child are doing well. Mrs. Ruth Snook is the daughter of Mr. and Mrs. George O. Smith, 225 Pine street, Berkeley. The newcomer has been christened Ormond Ruth Snook. Mr. and Mrs. Snook reside at 454 Piedmont Way.

This is the second newcomer announced in the district attorney's office recently. Deputy District Attorney Theodore Wittchen having announced the birth of a son on December 22. As this is the third child to arrive at the Wittchen household he professed to place no great importance upon the matter. Not so with Snook, who is justly proud of his first offspring.

## Leaders to Talk

WASHINGTON, Jan. 6.—Twelve of the leading figures of the Democratic party, including most of those prominently mentioned for the presidential nomination, are on the list of speakers made public today for the Jackson Day dinner to be held here Thursday night. A message from President Wilson will be read first at the banquet, and speeches will be made by the following: William Jennings Bryan, Secretary of State; Attorney General Palmer; Governor Cox of Ohio; James W. Gerard, former ambassador to Germany; Champ Clark of Missouri, former speaker of the House; Governor Cornwell of West Virginia, Senators Hitchcock of Nebraska, Pomerene of Ohio, Underwood of Alabama and Owen of Oklahoma, and Mrs. Peter Oleson, associated member of the national committee from Minnesota.

The banquet, incidental to the quadrennial meeting of the national committee to choose a time and place for the national convention, is expected to provide a vehicle for those in the running for the presidential nomination to place their views before the party leaders and the country.

Great interest centered in the President's message of greeting and in the pronouncements to be made by Bryan, who has been quoted as urging that the treaty be ratified promptly with compromise reservations. There are committeemen who believe that the President may ask in his message that the party forego chrysothron on a platform for unreserved ratification.

Of the six cities asking for the convention, Kansas City was the first to begin active work among committeemen, a group of boosters opening headquarters today. Chicago and San Francisco are expected to get actively into the race tomorrow and Cleveland, Cincinnati and Indianapolis also will be represented when the selection is made Thursday.

## DR. POWELL IS APPOINTED ON SCHOOL STAFF

Announcement was made today of the choice of Dr. Alvin Powell, Oakland physician and surgeon, to be director of the Alameda County Public Health Center, and to have charge of the medical supervision of schools for Oakland and Berkeley. He will succeed Dr. Richard Bolt, whose resignation was accepted by the Board of Education last evening.

Dr. Powell is a son of the late E. J. Powell, for a number of years head of the school board of this city. He is a resident of Berkeley, with offices in Oakland. Early in the American period of the war Dr. Powell organized an ambulance company with officers and men recruited largely from the University of California and Stanford University. Its efficiency was recognized at Allenby and abroad by those who observed its service.

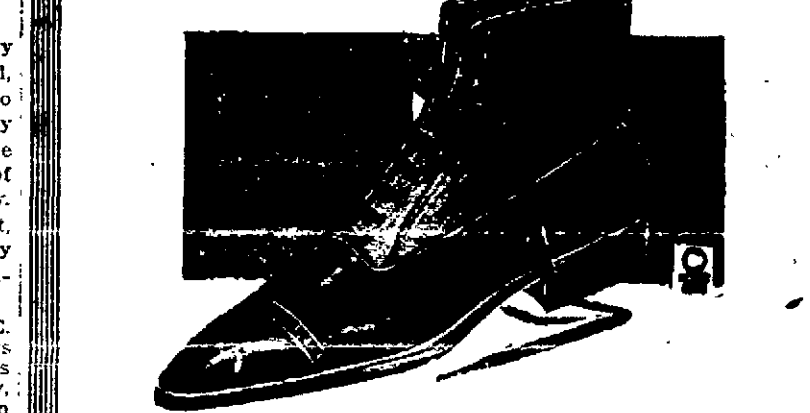

Dr. Powell has resided in the Eastbay most of his life. He was graduated from the University of California and subsequently from the University of California medical school. He took advanced studies in surgery with the Mayo Brothers and elsewhere in the East and completed his medical and surgical preparation at the University of California and elsewhere identified in important ways with the medical profession in this county.

Dr. Bolt resigned to go to Washington, where he will be director of the newly reorganized American Child Hygiene Society. This formerly was the American Association for the Study and Prevention of Infant Mortality and is the most important agency of its kind in the country.

## Whose Word Is Better Than Your Druggist's?

Physicians, Dentists and Nurses Rely On Him—Isn't That Sufficient Reason for Public Confidence?

There are many good reasons for the confidence the public repose in their druggist. First, he is educated by four years of College and Practical training. Second, ethical physicians everywhere rely implicitly on his skill—they trust him. This faith, of course, originates and is maintained by the professional service rendered by the druggist in the filling prescriptions. Everyone's admission of this confidence will warrant a prescription to a druggist.

Very few men can be honest in one department of their business and dishonest in the other. Dr. Jekyll and Mr. Hyde exist very little in real life. If you trust your druggist to fill your prescription, therefore, in all fairness, you must accept his word against the word of unknown and far distant manufacturers.

To recommend an article, the druggist must, of course, know what it contains and how it is made, and this was one reason for the formation of a co-operative national association of druggists and physicians who prepare a complete line of household remedies and toilet goods. This association is the American Druggists Syndicate, popularly called A.D.S. products. If you would like to fill your prescription, it's only fair to take his word about the merchandise he sells.—Advertisement.

GENUINE ASPIRIN  
GENUINE ASPIRIN

Get Relief Without Fear As Told in "Bayer Package."

The "Bayer Cross" is the signature of the true "Bayer Tablets of Aspirin." The name "Bayer" is only on genuine Aspirin prescribed by physicians for over eighteen years.

In every handy "Bayer" package are proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Rheumatism, Lumbago, Sciatica, Neuritis and for Pain generally.

Tin boxes of 12 tablets, cost only a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing Co. Monocetate of Acetylsalicylic Acid.—Advertisement.

## Hair and Scalp Ailment Solved By Science

A Hair Specialist Is of as Much Importance as Your Doctor or Dentist!

—Prof. John H. Austin, well-known bacteriologist, hair and scalp specialist, says that it is useless to try to cure dandruff, falling hair, or hair troubles, or any other hair or scalp trouble with the ordinary dandruff cures, mange cures, hair tonics or vasoline—in fact, it is just like taking medicine without knowing what you are trying to cure. When you stop to think that there are over sixty conditions of the hair and scalp, it is not surprising that different treatments, different remedies, it is easily understood that only a specialist can advise what to do.

The roots of the hair must be examined with a powerful microscope—the exact cause of each particular trouble must be determined—before the case can be intelligently treated.

—Prof. Austin has had 40 years experience in conditions of the hair and scalp. During this time thousands of people have found relief from their hair and scalp troubles. In many instances a new hair has been grown on bald patches, and baldness arrested. You can easily see the advantage of following the Prof. Austin method, now being demonstrated at The Owl Drug Store, Fourteenth and Washington.

—FREE microscope examinations of the hair and scalp. Daily—hours 10 to 12 and 2 to 4.—Advertisement.

## Return Basketball Game to Be Played

The physical training department of the Y. W. C. A. will be the scene, on Friday evening at 8:30, of a return basketball game between the Oakland and San Francisco associations. Twenty of the Oakland association players, as guests of San Francisco, were the victors in a hard-fought game.

Every day 250 persons go to live in New York City.

## Trail Slickly Children

Gain Strength Rapidly on Vinol

Vinol is successful because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Hypophosphites—but no oil—the very elements needed to build up strength and robustness. Children love to take it.

The Wonderful Efficiency of Vinol is proven by these letters

Aiken, S. C.—"My little girl five years of age had been delicate all her life. She was weak, run-down, no appetite, and she could not keep still a minute. We were very much worried about her. Our druggist, who is a doctor, said Vinol was the best tonic he knew for her. We tried it and you ought to see how she has improved by its use."—MRS. LEONARD W. GEORGE

For all run-down, nervous, anemic conditions, there is no remedy like Vinol. Your money will be returned if Vinol fails.

## SCHOOL BOARD OPENS WAY FOR COURT TEST

The Board of Education last night opened the way to a test case in the courts of the claim made by the board against the Board of Supervisors, in behalf of the Oakland School District, for reimbursement of expenses alleged to have been sustained by the district through the withdrawal for State purposes of taxation on operative properties.

The recent decision of City Attorney H. L. Hagan, declaring that the action of the Board of Supervisors in refusing the demand of the board for reimbursement was the final word in the issue, was read to the board last night and the entire matter was referred to President Floyd Gray for whatever action is to be taken.

The necessity of a reply to a letter two weeks ago from District Attorney Ezra Decoto, recommending a test case and suggesting that the board secure its own attorneys to proceed with the case, resulted in Secretary Lloyd D. Barzee being directed to draft a reply to Decoto, thanking him and putting the board on record as approving his suggestion.

During the discussion of the issue, several of the board members declared themselves in accord with the suggestion of the city attorney that future proceedings emanate from the taxpayers who would be most benefited by the proposed reimbursement.

President Gray declared that the reimbursement sought, amounting to about \$170,000, would mean a saving of 12 cents on the \$100 valuation to Oakland taxpayers next year. Gray called attention to the fact that while the Board of Supervisors last September fixed the sum of \$20,000 as the loss sustained by road districts through the withdrawal of operative properties taxation, the board last month reversed itself by declaring that the road districts had suffered no loss.

Following last night's meeting of the board, President Gray stated that a conference had been held during the day between himself, Superintendent of Schools Fred M. Hunter,

Attorney C. E. Snook and Attorney Roscoe D. Jones, during which plans were discussed for a court fight of the issue. Another conference will be held this week, Gray declared, when a decision will be reached as to what course will be pursued.

"The case will certainly be carried to the courts," said Gray, "and it is pretty safe to assume that the Board of Education will be a party in the suit. The case will be handled by Attorneys Roscoe D. Jones, Robert M. Fitzgerald and C. E. Snook."

The advisability of having the suit emanate from an individual taxpayer was discussed at yesterday's conference, according to Gray, and will be further taken up at the next conference between the board heads and their counsel.

## California Leads in Apple Production

California's 1919 commercial apple crop totaled 4,533,099 boxes, according to final figures just announced by the bureau of crop estimates. It is a point of percentage this state, with 38 per cent, leads all other states, with Washington and Arkansas each showing a 22 per cent production and Oregon's showing was 21 per cent.

## CRUSADE ON PROFITEERS BEGINS NOW

The Federal government is prepared to begin its crusade against profiteering by dealers throughout California and other sections of the state. It was officially announced in San Francisco this afternoon by John H. Atwood, special assistant to the U. S. Attorney General. Atwood will address the Associated Leagues of Oakland Friday.

At the conclusion today of a conference between Atwood and other government officials, Atwood advised his superiors at Washington that the machinery, through which he and his organization will endeavor to eliminate profiteering in food and other commodities was prepared to function. At four later Atwood received telegraphic instructions from Washington ordering him immediately to begin operations.

**PROFITEERING IS FIRST**

The crusade at the outset will be under the supervision of Atwood, E. M. Blanford, chief of the bureau of investigation of department of justice in San Francisco, and U. S. Attorney Annette A. Adams. These officials, according to Atwood, will subordinate all their activities for the present, except for the impending drive against all forms of profiteering. This line of endeavor, he said, would be concentrated on.

The federal officials in San Francisco are to be assisted by a committee of twenty persons selected for their fitness for the duties which they are to assume. This committee will be named the latter part of the week, to all likelihood on Friday. It will be a small executive committee which will assume control of the administrative activities of the investigation.

**PREPARED TO ACT**

"We are now prepared with our investigation and checking of all forms of profiteering," declared Atwood. "We will work on the theory that dealers will co-operate with us in lowering prevailing high prices, partly through a spirit of loyalty and partly because they surely must realize that lowered prices means an increase in sales."

"However, if this spirit of co-operation is lacking the power of the government which we possess will be evoked to its fullest. Instances where investigation discloses profiteering will be dealt with adequately."

"We already have names of alleged profiteers and they are going to be subjected to immediate and close scrutiny."

Atwood declared that the final details necessary to the perfection of an efficient working organization will be rushed to completion.

## BOARD OF EDUCATION CLOSES CONTROVERSY

The final chapter in the long history of the investigation into alleged irregularities in the management of the School Department, that started several months ago with the dismissal of the former secretary and business manager, Daniel W. Pratt, was written at a special meeting of the board of education last night.

At the conclusion of the session the board adopted a motion introduced by Director E. A. Young declaring the subject closed and filing without further discussion the report of Secretary Lloyd D. Barzee on a long list of alleged irregularities brought to the attention of the board by President Floyd Gray, many of which were substantiated in the report.

**HEATED DEBATE OPENED**

At the opening of the meeting Director Fred A. Campbell asked for an appeal from his decision demanding from certain department employees the return of all overpaid salaries. The demand made a week ago by the board for the return of salaries collected by the same employees for vacation periods was the subject of a heated debate.

"We are here for other purposes than to waste our time on these things that have passed," said Director J. P. Chandler. "These things took place in the regime of a former business manager, and the evidence shows that he alone was responsible. Why can't we close the incident by informing the present business manager that such things will not be tolerated?"

"If the business manager was derelict in his duty, then the school board over him was also at fault," retorted Campbell.

"I've waited for six months for this board to get down to business," intoned Director J. P. Chandler. "We can spend another six months on this report and not get anywhere."

**RESOLUTION LOST**

Campbell's resolution was put to a vote and lost and Director Young then submitted his proposal to declare the matter closed and file the Barzee report without further discussion.

## WALKING CURE FOR SPEEDERS, JUDGE CLAIMS

STOCKTON, Jan. 6.—Police Judge Eicke believes he has a cure for speed maniacs. H. J. Bravo, a taxi cab driver, was the third man within many days to have his machine locked up by the police for thirty days. All speeders offered to pay fines, which the judge announced were no longer in vogue. The terms of sentence provide that the men must walk for thirty days. Violation by driving or riding in an automobile will cause them to spend thirty days in jail.

## Marysville Burglar Suspect Arrested

Ray Going, a negro wanted on a burglary charge by the Marysville police, was arrested in Oakland today by Patrolmen William Wood, Gallagher and Evers. The arrest was made at Seventh and Lewis streets. Going made no resistance and is now held in the city jail pending instructions from the Marysville authorities.

## EXTRADITION GRANTED

SACRAMENTO, Jan. 6.—Governor William D. Stephens today honored the application from Texas for return to Fort Worth of E. J. Ward and John Gerber, charged with fake oil and gasoline. Ward and Gerber are in arrest in San Bernardino.

## RAIL CHIEFS AND COMPERS AT OUTS

By MILDRED MORRIS, International News Service Staff Correspondent.

WASHINGTON, Jan. 6.—Relations between Samuel Gompers and chiefs of the four big railroad brotherhoods are strained to a breaking point. Labor circles are expecting an open rupture after the pending railroad legislation is out of the way.

It is no longer a secret that Warren S. Stone, chief of the Brotherhood of Locomotive Engineers, remained away from Gompers' conference of railroad union heads last week to avoid a break.

All four of the brotherhood chiefs are men of personality as strong as Gompers. The heads of railroad unions affiliated with the federation have stood with them on several occasions in opposition to Gompers.

Some labor leaders attach significance to the rift between Gompers and Stone as the outcome, they say, may have bearing on the future status of the American Federation of Labor in the labor movement.

Next to Gompers, Stone is acknowledged to be the most dominant figure in the American labor movement today.

Friction between the two leaders began with Gompers' refusal to endorse the Plumb plan. Stone is president of the Plumb Plan League.

## PINK AND SILKEN IN MABEL'S ROOM

Farce, the raucous daughter of Mr. and Mrs. Obvious, will be found "Up in Mabel's Room" for two more days. Mabel's room, feverishly known as a boudoir, is on the second story of a building, is on the second story of a building, is on the second story of a building.

Farce, chemised in pink and gold, romps in one nervous door and out the other, pops from a window and in and rolls from under a bed, and that, being pinkish, is not utilitarian.

The plot—if hopping from frying pan to fire to hot water may be called a plot—ends on a note of comedy with quips, witticism and nearly so. It has a lot—quite enough, in fact—to do with a chemise once sent to Mabel Eslington by Garry Almsworth. Being urged to try the time that he made the selection, Garry fell under a rosy spell of professional naughtiness and had his name embroidered on the frilly-frivoli.

It would seem that the gift, once in the parcels post, would pass from the eye, if not the mind, of man. But not so. There was yet to be reckoned with two farce writers and a producer. The publishing combination dragged forth the unmentionable for all to gaze at—that is, for all who could meet the demands of the box office or filch a pass from a friend.

**THEY FALL FAR OUT**

Garry and Mabel were made to fall out. Far out. He wed another and she got herself engaged, eventually. Later, when the play opened, they met at a week-end affair at the house of Mabel's last love. Here Garry finds the cat in a vicious mood and determined to flaunt the future and outwitted. He is before the jealous eyes of Garry's young wife.

The night is crowded with efforts of Garry to recover the fashioned shift. By hiding him under Mabel's shreds and unopened doors, the employment of a valet who also seeks to destroy the evidence that threatens to drive him from the scene. The play is a masterpiece of farce, the authors have evolved a pleasant evening for all.

"Up in Mabel's Room" is one of those "griping" next-to-stupid comedies that see the fellow out in front by the ears and haul him out of his seat. Last night when Oakland caught its first glimpse of Mabel in the pink envelope, there were those in the auditorium who lent advice to Garry and even voice to their excitement by shouting directions as to the safest exit from Mabel's room. The premiere thing in farce is the audience.

**AS TO THE CAST**

Julie Rine wears "as Mabel, the color combination fitting the description and the part drawing her gracefully. Garry does well in the hands of Sager Midgley, who provides the rare combination of a farceur with intelligence. If there are things lacking in the play, one is led to forget them in the merriment and the entertainment provided by double-edged lines and other unmentionables.

The play might be naughty in another age. But these days there are the finger advertisements in the newspapers and the sold linen authors of the popular magazines. There is, therefore, no cause for alarm on the part of the vice and advice squads of this fair city. They may keep out of Mabel's room with the knowledge that all is well even if it is pink and silken embroidered.

## DOESN'T NEED ANY LAXATIVES NOW

Mr. Becker Says Life is a Joy, Without Constipation or Stomach Trouble.

"I had catarrh of the stomach and head for three years. My stomach was so bad that every time I ate anything sweet, such as fruit or pastry, the burning hot water, would run out of my mouth. I took a laxative every night."

"Since taking Milks Emulsion my bowels move regularly. I have now taken ten bottles and have gained 104 pounds. All my friends remark how fine I am looking, and it seems a pleasure to live again without stomach trouble."—Bert Becker, Miami, Ohio.

Physicians usually make slaves out of their users and weaken the bowels instead of correcting them. Stomach trouble in many cases is directly due to constipation.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physio. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and bone, it is the most powerful and recommended to those whom sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made in such a way that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with results your money will be promptly refunded. Price six and \$12.00 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Advertisement.

## THOUSANDS HAVE KIDNEY TROUBLE AND NEVER SUSPECT IT

Applicants for Insurance Often Rejected

Judging from reports from druggists who are constantly in touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Williams' Pink Pills is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent life insurance companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Kidney's swamp-plant is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Williams' Co., Birmingham, N. Y., for a sample bottle. When writing be sure and mention the Oakland Tribune.—Advertisement.

## FLOODS AFTER EARTHQUAKES CAUSE DEATHS

MEXICO CITY, Jan. 5.—Floods have followed the earthquake in Eastern Mexico, causing many fatalities. The flood in the San Francisco Bay area was especially severe, wiping out many villages. Ranconada, between the City of Vera Cruz and Jalapa, was completely submerged. Twenty-five bodies have been recovered there and the water is dotted with many more corpses.

Official reports that began to trickle in today from the devastated area show that the damage and loss of life were more extensive than originally supposed.

## Girl Who Shot Father Faces Trial For Killing Stepfather

ST. LOUIS, Mo., Jan. 6.—Saved from the possibility of a life sentence because prosecuting attorneys were unable to establish whether she is 15 or 16 years old, Ursula Broderick, a telephone operator, will go on trial here today for first degree murder in the juvenile court. Her defense is that she shot and killed her stepfather, Joseph Lock, a 45-year-old plumbing contractor, to save herself when he carried her bedroom, picked her up bodily, carried her to his own room and attempted to have intercourse with her.

The case was ordered transferred from the criminal division of the circuit court by Circuit Judge Taylor yesterday when the prosecution endeavored unsuccessfully to prove that she had reached the age required for trial in the Circuit Court.

If convicted in the Juvenile Court, the sentence cannot exceed confinement in a state reformatory until she reaches the age of 18.

## DRY LAW TRIMS HOSPITAL CASES

Figures supplied by Steward Frank Davidson of the Emergency Hospital show that 470 less cases were handled since the dry law went into effect on July 1 than for the previous six months. In all a total of 6612 emergency cases were taken care of during the year. Cases handled during the first six months of last year totaled 3441, and for the last six months of the year 2071 cases were attended to.

Great variety is shown by the hospital records of the cases attended to. In 1919, 1000 cases were reported as being from a workman's accident.

The hospital staff includes: Dr. O. D. Hamlin, in charge; Dr. W. H. Irwin, Dr. George C. Reule, Dr. C. A. DePuy, Dr. A. C. Smith, Dr. Harold E. Richard, Frank Davidson and Charles Emley, nurses; Miss Margaret Clark and Winifred Vautier, Mrs. Maude Hughes is housekeeper.

## "FARMER FRED" WANTED BY— NO, NOT POLICE

Where are you, "Farmer Fred"? Why didn't you show up for that big Christmas dinner with all sorts of "minstrel" and presents, that your mother and grandmother prepared for you?

That's what they want to know. A letter to THE TRIBUNE today brings to light a belated, but story of Christmas time. The message to "Farmer Fred" never was so vital as now, however, according to the mother, Mrs. Nellie Todd of Inglewood, Los Angeles county.

She writes that the grandmother went to the greatest pains to prepare that "nice Christmas".

Then they watched the walk in front of the house.

That's what I don't see. The grandmother had a serious breakdown. The mother writes that she is very ill. Only the presence of the boy, known as "Farmer Fred" can save her.

She says that "Farmer Fred" has not always been on his best behavior and just now he's on probation. That doesn't make any difference to the mother and grandmother, though, and Mrs. Todd assures the boy that the probation officer will permit him to get a "job" if he returns home.

## SISTERS, 6 AND 8, DISAPPEAR

The police are unable to account for the disappearance of little Maria Fassnacht, 5 years old, and her 3-year-old sister, Katharine, who left their home at 1471 Seventh street yesterday morning to go to St. Mary's School. They have not been seen since.

Upon their failure to return home at the accustomed hour their parents called up the school and were informed that the two girls had been absent all day. The police were notified and a search was made, but without success.

Neither the police or the girls' parents are able to advance a theory for their disappearance.

## Electric Washing Machines

are on constant demonstration here

BECAUSE the electric washing machine comes to relieve woman of one of her most primitive tasks, it is entitled to an important place in a store that specializes on modern labor-saving devices for the home. That's why there's a special room for electric washers at Breuner's in charge of a young lady whose sole business is to demonstrate the different types of machines.

## Six Different Makes to Choose from

See these various makes demonstrated, hear the good points of each, and it will then be easy to select the one that best suits your needs. All are sold on the usual easy credit terms.

The electric washer illustrated is the dolly type Maytag. It has a wooden tub, a 1/4-horsepower motor, and uses about one-third the power an electric iron does. The swinging wringer locks in three different positions, a great help with laundry tubs of various heights. This nationally advertised electric washer \$110 sells for . . . .

Terms \$7.00 down—\$7.00 monthly

## All Are Sold on Easy Terms

Other washing machines sold on terms here are the "baby grand" Maytag, with a revolving cast aluminum cylinder, the only one of its kind on the market; the Thor, the Almetal, the Johnson and the Western Electric.

Trade in your old stove and let it help pay for a new one

Used furniture may be applied on your account when buying new pieces

The Thor is distinguished by a revolving cylinder of wood, and has a stationary wringer. The Western Electric has a revolving wood cylinder and a swinging wringer. The Almetal is a vacuum type, with copper boiler and a gas burner beneath. The Johnson has a copper tub, and comes with or without gas burner.

Let us demonstrate them for you.

### Herb Treatments

When we think of the thousands of chronic sufferers from skin, blood and organic diseases, commonly termed incurable, who could find relief through our herb treatments we feel a weight of responsibility. Physicians with unusual skill in the treatment of certain ailments should make known their abilities. Too many people have been caused by the false publicity which prompts the doctor to conceal his shortcomings. There is a wealth of sworn testimony in Dr. Sing's office to bear out this assertion.
